

Quality criteria

Quality criteria

Quality criteria of our surgery

Our surgery offers a quality of treatment which is much higher than the average.

Detailed information about our quality criteria

- The use of high quality materials, for example, fillings, root fillings, crowns and inlays
- Use of the most modern treatment and x-ray apparatus
- Support by motivated professionals (dental hygienists)
- Use of systems of magnification during treatment (magnifying glasses)
- Treatment to preserve the dental substance
- High technical dental quality regulated by German laboratories
